FOR IMMEDIATE RELEASE

High performance audio meets luxury design at ISE 2015.

Wisdom Audio join forces with the Italian design expertise of Home Theater Environment (H.T.E) to deliver the ultimate home cinema experience, Hall 7, Booth 7-Q180

CARSON CITY, NV, USA and (ISE) AMSTERDAM, Netherlands – February 10, 2015 – Wisdom Audio, the leader in design and manufacture of advanced thin-film planar magnetic transducers, will present an active home theater demonstration in Hall 7, Booth 7-Q180. The two-tier cinema room was designed and assembled by Italian specialist H.T.E using the most attractive theme to conceal their proprietary acoustical treatments.

The 8-seat theater will feature Wisdom Audio's Insight Series L8i Line Source speakers for front stage and surround channels in combination with four S90i Regenerative Transmission Line™ subwoofers. Remarkably, the entire 7.4 channel system is concealed in walls less than 16cm deep. 11 channels of amplification, delivering 5.5 kilowatts of power, will be provided by four Wisdom Audio SA-3 amplifiers.

The Wisdom systems will work in unison with Datasat's RS20i Preamp. Rounding out the audio complement is a 3 meter wide acoustically transparent video projection screen from Screen Excellence and a Sony VPL500ES projector.

"Wisdom Audio and its partners have assembled an incredible demonstration for ISE 2015. We are proud to demonstrate the many benefits of our line source speaker systems and the superior reproduction capabilities of thin-film planar magnetic technology at such an attractive price point" said Wisdom Audio's Luc Guillaume, Chief Business Development Officer.

About Wisdom Audio

Wisdom Audio is the leader in designing and manufacturing high-performance planar magnetic transducers for architectural speaker applications. Wisdom Audio was founded in 1996 to create no-compromise planar magnetic hybrid loudspeaker systems for the most demanding and critical audiophiles. Wisdom Audio systems employ proprietary, custom-made planar magnetic and dynamic transducers optimized for high performance, including high-end architectural audio reproduction applications.

Its hybrid-technology systems have earned praise and awards from the specialized media, while satisfying a growing base of customers and dealers worldwide. Wisdom Audio's products, including their multi-award winning Insight, Sage, and Wisdom Series architectural models, are handcrafted in limited quantities by specialized craftsman at its headquarters in Carson City, Nevada.
