Wisdom Audio and D-Tools Collaborate to Provide System Integrator™ Users with Detailed Product Information

Wisdom Audio joins the D-Tools MVP program, offering comprehensive product info within the program.

CONCORD, CA. SEPTEMBER 7th, 2007 — D-Tools, Inc., the worldwide leader in system integration software, today announced that Wisdom Audio has joined the D-Tools Manufacturer Vantage Point (MVP) program, making it easy for users of D-Tools' award-winning System Integrator software to specify Wisdom Audio products for client projects. Headquartered in Carson City, NV, Wisdom Audio is the leader in designing and manufacturing high-performance planar-magnetic drivers and hybrid loudspeaker systems

“We are extremely excited to be a D-Tools MVP program member,” said Jon Herron, Vice President of Sales for Wisdom Audio, “We look forward to the opportunity to link up with an immense market of integrators and offer our superior products to fit their customer’s needs. The MVP program will give us an additional outlet to reach new businesses that might not have had access to our product information prior to our membership”

The D-Tools Manufacturer Vantage Point (MVP) program is designed to help provide system integrators with the most up-to-date product information to over 2,500 companies using D-Tools System Integrator software. D-Tools MVP members are dedicated to helping companies streamline the design process and

making it easier for system integrators and installers to provide accurate proposals to their clients.

“Wisdom Audio has been in the audio industry for a long time and we’re pleased to name them as our newest MVP member,” said Adam Stone, President of D-Tools. “Their world class products and innovative technology have led them to be the recipient of many prestigious awards and they are a welcome addition to the MVP program.”

About Wisdom Audio

Wisdom Audio is the leader in designing and manufacturing high-performance planar-magnetic drivers loudspeaker systems, with more than 85 man years experience on staff. Wisdom Audio founder Tom previously a founder of loudspeaker company Bohlender Graebener Corporation and a pioneer in planar design, launched Wisdom Audio in 1996 to create no-compromise planar loudspeaker systems for demanding and critical audiophiles. Wisdom Audio systems employ proprietary, custom-made planar and transducers optimized for high-performance, high-end audio reproduction applications. Its hybrid-technology have earned praise from the specialized media, earning them the coveted “Golden Ear” award from The Sound while satisfying a growing base of customers and dealers worldwide. Wisdom Audio’s line of planar-hybrid loudspeaker solutions range from the Sage Series architectural that include the world’s most advanced in-wall speaker systems and culminate with the flagship Infinite Grande, among the world’s most expensive home loudspeaker systems. Wisdom Audio products handcrafted in limited quantities by specialized craftsmen at its headquarters in Carson City, Nevada.

About D-Tools, Inc.

D-Tools, founded in 1998 and based in Concord, California, is a worldwide leader in accessible, highly accurate system design and documentation software. The company’s flagship product, System Integrator™ (SI), is a total design solution that utilizes Autodesk® AutoCAD and Microsoft® Visio for comprehensive system design, documentation and project management. D-Tools SI allows commercial integrators to streamline their business processes to increase overall revenues while reducing the time and costs associated with the installation and integration

of low-voltage systems. Over 2,000 leading companies use D-Tools software to reduce time and costs and streamline the system integration process. D-Tools is the recipient of the Consumer Electronics Association's Mark of Excellence Award (2004, 2005, 2006), National Systems Contractors Association and Sound and Video Contractor's Innovations in Technology for Business Productivity Award (2004, 2005) and CE Pro's High Impact Award for Design Software.
